

LITTERA PUBLIC SCHOOL

Class 6

Revision Practice Assignment

Science

Day 1

1. Why water is called universal solvent?
2. What is distillation? Explain with the help of diagram and example.
3. What is solubility?
4. Differentiate between homogeneous and heterogeneous mixture.

Day 2

1. Define the following terms with example.
 - i. Slow and fast change
 - ii. Desirable and undesirable change
 - iii. Periodic and non-periodic change
2. Differentiate between physical and chemical change.
3. Differentiate between reversible and irreversible change.

Day 3

1. Draw a well labelled diagram of flower and explain all its parts.
2. What is transpiration? What are the advantages of transpiration?
3. What do you mean by venation? Explain two types of venations with diagram.

Day 4

1. How can you separate two immiscible liquids? Explain with the help of a diagram.
2. What is photosynthesis?
3. Write four characteristics of chemical change.
