

# LITTERA PUBLIC SCHOOL

**CLASS I**

**CHAPTER 11**

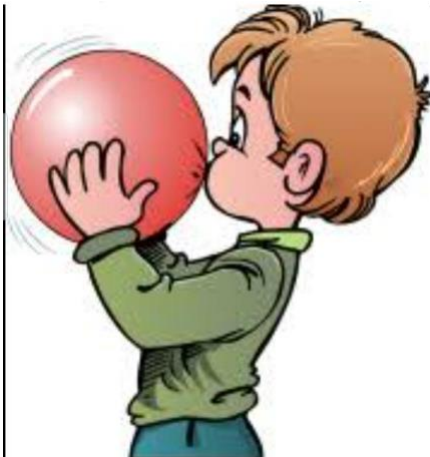

**SCIENCE**

## **Air Around Us**

Air is all around us but we cannot see it. We can only feel it when it moves. When air moves gently, it is called a breeze. Wind is fast moving air. Wind with lightning thunder and rain is called a storm .

### **Uses of Air :-**

- All living things need air to live .
- Animals also need air to breathe.
- Plants need air to breathe and prepare food.
- Air is needed for burning.
- Wind is used to move things such as an aeroplane and a windmill etc.
- Air makes parachutes and kites fly.
- Wind moves a sail boat .
- Air is used to blow instruments like flutes, trumpets and mouth organs.
- Clothes dry faster on a windy day .

**Sail boat**

**Wind mill**

**Flying kite**

**Drying clothes**

**Plant lots of trees. They keep air fresh and clean .**

- Air is all around us.
- Plants and animals need air to live.
- Air fills space and has weight.
- Air has different forms - breeze, wind and storm.
- Air is needed for burning.
