CHAPTER 10

SCIENCE

AIR AROUND US

Air

- Air is necessary for all of us to live.
- We need air to breathe.
- We cannot see air.
- We can feel it when it blows.

Wind

- Moving air is called wind.
- Wind has speed.
- Wind has direction.
- Wind has force.

Uses of wind

- Wind moves the blade of a windmill.

- Wind helps to move a sail boat.

- Wind helps a kite fly.

- Wind helps an aeroplane fly faster.
- Wind helps clothes dry faster.

- Wind helps hot air balloons to move up.
