

LITTERA PUBLIC SCHOOL

CLASS 2

CHAPTER 13

SCIENCE

LOOKING AFTER OUR ENVIRONMENT

- Everything around us is our environment.
- Both living and non living things make our environment.

Polluting the environment

- Air becomes dirty due to the smoke from vehicles, factories, burning of leaves etc.

WASTE DISPOSAL

ACID RAINS

WATER POLLUTION

AIR POLLUTION

- Water becomes dirty due to human activities like bathing animals, throwing garbage, washing utensils etc.

Steps to save our environment

- Say 'No' to plastic bags.
- Use paper, cloth or jute bags.
- Throw wastes in covered bins.
- Plant more and more trees to keep air clean.
- Do not waste electricity.
- Listen to music and watch television at low volume.
